It appears that the Régime is aware that any denger to ite existence which night arkso vould seas from earny the disappointed voriding class and in partisular from energical sected democrate, who had formed the opposition in the past and who feel deeply descrived since the Camandists have taken control of the relac. The Mila keeps a untehful eye on these workwan, more than as the kulake and on the middle class who are materially and novally depressed and immyable of organizing any resistance.

All children's daycebools are supervised by reliable Commists Since both percets usually work, their influence on the children to considerably reduced. Most of the teachers at elementary schools and trained Communists. In contrast to the salaries given to employees and officials, these teachers are will paid and therefore feel obligated to the Bigins.
